Welcome Producers,

On behalf of our 2J Angus Family, we would like to invite you to our 13th Annual Production Sale.

Words cannot express our gratitude for your friendships built over the years, and the continuous relationships we get to enjoy! Our family is very grateful.

We continue to strive to raise the very best seedstock possible to help your operation grow, whether that be selling feeder calves, replacement females, or fat cattle at the highest market.

This 2023 2J Angus offering will represent some of the very best offspring to date. Including 10 Big stout 18 month old virgin fall bulls, and 35 Yearling Angus bulls backed by our very best cow families.

Our kids are with these calves from birth until sale day so docility is the very best. The bulls will be fully vaccinated, ultrasound, semen checked and ready to go to work for you.

Again, we want to thank our past customers and welcome new customers to come evaluate the bull offering at our 13th Annual Production Sale April 5th at 11:00 A.M. at the Dunlap Livestock Auction Facility, Dunlap IA.

Sincerely,

2J Angus

COMMENTS FROM THE SALE MANAGER:

On the behalf of the American Angus Hall of Fame, we are very excited and honored to be working with the Jones family for their 13th consecutive annual production sale. As we speak, the beef cattle market is soaring to an all-time record high, thus placing Certified Angus Beef and purebred Angus genetics in high demand all across the United States of America.

We feel confident that the phenotype and genotype combined that these bulls have to offer are some of the very best you will find anywhere in the country. The future for registered Angus cattle is brighter now than ever. The time to take advantage of adding new blood and value to your calf crop by using 2J Angus bulls is now! If there is anything we can do to be of service, please give us a call at the American Angus Hall of Fame. We look forward to seeing each of you on sale day and we believe you will like the bulls in the auction. We are here to serve.

Sincerely,

Tom Burke
